# Introduction

3D Change, architects of the London Jobs Fair South are expanding their successful programme to reach jobseekers across the whole of London.

February 2018 saw the launch of the London Jobs Fair East at the Rich Mix Centre in Shoreditch, a venue well known for cultural diversity and the arts which provided the perfect backdrop for the new Arts and Culture Zone accompanying the well established Employment, Training, Workshop and Procurement Zones.

Partnering with the London Borough of Tower Hamlets and some of London's leading housing associations, the event is part of a wider programme to bring local jobs to local people and local contracts to local businesses. Targeting and supporting local unemployed people is the focus of the model coupled with excellent benefits to our loyal partners and sponsors (suppliers to the Housing Associations/Local Authorities).

The purpose of this summary review is to provide a snapshot of what happened on the day, including headline statistics. A full report is available upon request by emailing:
